

This is to support Air 1 radio stations and to protect their airwaves from LPFM broadcasters.

Air 1 provides a style of Christian broadcasting that is not available on other local stations. I listen to Air 1 daily and am personally encouraged through their programming.

If Air 1 was displaced by another LPFM broadcaster the youth in the area would lose a healthy morally sound alternative to traditional rock and roll music. I believe Air 1's programming is vital to the public interest of West Texas because of its family friendly format and content that encourages personal responsibility and respect for others. These principles stand in opposition to the prevalent selfishness found in our society. I believe the youth need to be exposed to these principles in a neutral format that a radio station provides. Thank you for your consideration and please keep Air 1 on the air!
